

### Guidelines of the Article/Paper pattern:

All submitted Research manuscripts/articles must follow the pattern given below:

S. No.	Article/Paper pattern
1	Title of the Article (Maximum 150 characters)
2	Author(s) Name, Address of the Affiliated Institution, and Email ID, Phone/Mobile no, etc.
3	Abstract of the article- (200 words) (background, rational, methodology, result, conclusion & recommendation)
4	Keywords Maximum (5-6 words)
5	Word limits of Article 3500 -5000 excluding references & annexure
6	Introduction/ Background
7	Literature survey
8	Problem Definition/ Rational of the article
9	Methodology/ Approach
10	Result & Discussion
11	Conclusion
12	Future scope / Suggestions / Recommendations for Collaboration and Inter-sectoral and multi-sectoral coordination for optimum health attainment – 100 words
13	Limitation and conflict if any
14	References
15	Annexure of Tables and Figures
16	Name with contact address and Email ID of 2 reviewers
17	Each Author(s) short Profile with photo

### Article Pattern Guidelines:

**Title:** Title must be informative and specific. It should be easily understandable by the reader and should reflect the motive of the research paper.

**Author Name, Affiliation, and Email ID:** Author First name and Last name only. Please don't include salutations like Dr / Mr / Prof etc. If possible provide only your professional email id, instead of personal.

**Abstract:** One paragraph containing at most 200 words. It is a summary of the report describing the question investigated, the methods used, the principal results, and conclusions.

**Keywords:** Five most important terms that describe your research domain and specific problem area investigated.

**Introduction:** It is a brief section usually not more than a page. It should be informing the reader of the relevance of the research.

**Literature Survey:** This section includes a short history or relevant background of the research area being addressed.

**Methodology / Approach:** This section should describe how the researcher (s) is supposed to rectify the problem, what approach, or what methodologies are used to achieve the objectives in the paper.

**Results / Discussion:** This section describes the outputs generated in the methodology section. Elaborate and compare results with previous research performed in the past.

**Conclusion:** Final extract of the research performed. Concisely elaborate on the final output here.

**Future Scope, Suggestions / Recommendations for Collaboration and Inter-sectoral and multi-sectoral coordination (100 Words):** What are the future possibilities of improvement in the research the author performed. Discuss the limitations and benefits of research.

**References:** If you reference an external source in your paper, you should cite where you found that source. Give credit to the actual contributor, they deserve this.

**Reviewer:** Author(s) have to provide Name with contact address and Email ID of 2 reviewers so that the editorial board may send the manuscript to the reviewer if needed.

**Authors Short Profile:** Short biodata of all the authors, including a small picture also so that people should know you too!

**Article Styling:** Finally, make sure the author(s) are formatting their manuscript as per the Paper Format given below:

Font Family: Times New Roman

Title Font Size: 24pt

Author Names Font Size: 11pt, Bold

Author Affiliation Font Size: 9pt

Abstract Font Size: 9pt, Bold, Italic

Keywords Font Size: 9pt

Heading Font Size: 12pt, Bold

Subheading Font Size: 10pt, Bold

Table Contents Font Size: 9pt

Table Heading Font Size: 9pt, Italic

Figure / Table Caption Font Size: 10pt

Reference Bullet Format: [1], [2] ...

Citation Format: [1], [2] ...

Line Spacing: 1.0 pt

Line Spacing Before After: Nil

Page Size: A4

Page Orientation: Portrait

Number of Columns: 2

Column Width: 3.38 Inch

Space between Columns: 0.5 Inch

Page Margins: Top - 0.7 Inch, Bottom - 0.7 Inch,

Left - 0.67 Inch, Right - 0.56 Inch, Gutter - 0 Inch,

Gutter Position - Left

Author Photo Size: Width 0.51 Inch (Keep Aspect

Ratio)

Header: 0.1 Inch

Footer: 0.3 Inch

## SPECIAL EDITED BOOKS ON “COLLABORATIVE GOVERNANCE FOR SUSTAINABLE DEVELOPMENT OF HEALTH AND WELL-BEING: ISSUES AND PERSPECTIVES”

आरोग्यम् सुखसम्पदा

**The National Institute of Health and  
Family Welfare  
Munirka, New Delhi 110067**

**Web Site: [www.nihfw.org](http://www.nihfw.org)**

## About the Book

Health is an essential component for human development, but attaining optimum health status depends on other social and distal determinants of life. To address inequity in health and achieve the global standard, the health Policies and Programmes describes actions for renovating health care system and delivering quality services to promote equity, efficiency, effectiveness, and accountability by establishing Integrated National Health System & Collaboration with other sectoral departments considering health dimension in their public policies & programmes for sustainable development. Sustainable Development (SD) visualizes collaborative governance as a process to structure public policy, decision making, implementation & management, engaging people constructively at levels of government within the public, private and civic sphere for greater achievement.

Studies on inter-sectoral coordination for health identified challenges like lack of clear directives & institutional support for collaboration, obstacles to monitoring, interdepartmental administrative challenges, differing perspectives on strategy among district leaders, community resistance, and intervention over-commitment. There have been struggles to find the way forward on how to achieve collaborative action within local health systems with specific local-based strategies considering regional disparities for health transformation. Despite the expansion of health system capacities, each state & union territories are at a different level of achievements. To transform policies & programmes into result-oriented achievable action the Gol and the states need to deliberate & consider several essential but critical aspects like:

- How to integrate the SD health agenda into the existing policies, programme & plans?
- What additional strategies & resources are needed or to be mobilized within and outside the health sector for coordination & cooperation for collective impact on health?
- How to establish center-state and inter-sectoral coordination mechanisms, implement & monitor progress on different targets under collaboration for sustainability?

Hitherto, there is a need to review & assess the current collaboration and suggest strategies to overcome the problems faced by stakeholders for inter-sectoral/multi-sectoral agreements for health. Further, the way India with its diversity of problems & issues develop SD strategies for achieving optimum quality of health will be the best model for replication by other countries with a similar setting. For making such deliberations meaningful and coherent, the NIHFW undertook to publish a sequence of volumes based special Edition Books on “Collaborative Governance for Sustainable Development of Health and Well-Being: Issues and Perspectives” on various themes. As an initiative, the institute had published two volumes i.e. Volume I & Volume II. Volume-I contains sub-themes reproductive and child health, non-communicable diseases, and adolescent health. Volume-II contains sub-themes Tribal health, elderly health, and migration, public-private partnership, health financing, and application of machine learning techniques in public health. However, in continuation to this, NIHFW is the process of publishing further volumes in E- BOOK FORMATE on the themes mentioned below. Hence, articles are invited on the sub-themes under each theme mentioned within.

### Objective:

To discuss & deliberate on the current status of collaborative Governance for Sustainable Development of Health and Well-being: issues and Perspectives under various health-associated developmental initiatives to achieve holistic development and quality of life.

### Specific objectives:

- To discuss & deliberate the current status of Collaborative Governance in different health programs, the magnitude of collaboration & developmental initiatives undertaken to address health inequity for quality of health care.

- To discuss, debate & identify the priority issues and challenges relating to collaborative Governance for health to the attainment of Sustainable development goals and beyond.
- To develop a future strategic plan of action for collaborative agreement by addressing the existing gaps within local health systems.
- To recommend a future course of action.

### Key Topic/ Themes of the Books:

#### Volume -3: Inter-sectoral coordination for Environmental challenge and people's health

Sub-Themes (Sub Topics)

- Water and sanitation
- Hygiene for health
- Occupational health hazards
- Pollution- Soil, air & water
- Climate Change

#### Volume -4: Socio-Economic Policy Perceptive in Public Health

Sub-Themes (Sub Topics)

- Poverty, Food & Health Security
- Population Stabilization
- Migration & Public Health Challenge
- Health And Human Rights
- Health Resources Management
- Financing
- Human Resource

#### Volume -5: Health Communication

Sub-Themes (Sub Topics)

- Community Need Assessment for planning health communication activities
- IEC/BCC/SBCC communication strategy for desired health goals
- Interpersonal Communication & Counselling, Mid-Media/Traditional Media for desired change
- Best practices of using Health Communication in emergencies
- Innovations for inter-sectoral coordination in Health Communication

#### Volume -6: Alternative Medicine and Health

Sub-Themes (Sub Topics)

- Diseases Management in AYUSH
- Naturopathy & Yoga in Health Promotion and Disease Prevention
- Policy and strategy in Herbal Drugs and cosmetics
- Spiritual Health & music therapy
- Ethical issues & best Practices in alternate Medicine

#### Volume -7: Role of Private Sector and Non-Governmental Organization in Health

Sub-Themes (Sub Topics)

- Role of Private Sector in health sustainability
- Role of Non-Government organization in health
- Corporate Social Responsibility for Health
- PPP for health
- Learning from initiatives and best practices

### Authors of the Books:

The authors would be academicians and researchers from India & neighboring countries belonging to various Universities, Medical Colleges, National & Regional Health Research institutes, Health Professionals & Administrators, Policy-makers & Planners, NGO professionals working in the field of health, and development. Each author will be writing an article on the given thematic areas under their interest. The article can also be contributed by co-authorships.

### Review of the articles for the Books:

Each article submitted will be reviewed by two external experts to maintain and upkeep the quality of the article to be considered for publishing. The reviewers' comments received against each article will be sent to the author for required modification and changes as suggested by the reviewers. The modified article will be resent to the reviewers for the finalization and approval before accepting and considering for the publishing in the book.

### Dissemination of the Books:

Each volume of the special edited books (e- Book) will be dispatched to various libraries of Institutes of National importance and partner institutes.

### Outcome of the Books:

- Generate documentary evidence on priority areas of Collaboration & collaborative endeavours with other sectoral for health & development.
- Each submitted article will carry recommendations alongside strategic plan of action that will be articulated and disseminated among the concerned ministries of the Centre & States for improving health outcomes, reducing inter-sectoral conflicts, enhancing cooperation & integration for health programme management addressing regional disparities with accountability for inclusive development.
- Besides, all the published volumes of books will be dispatched to the library of partner institutes for wider dissemination.

### Important Dates:

**Abstract: 30<sup>st</sup> April 2022**

**Full Paper: 31<sup>st</sup> July 2022**

**Peer review of the paper: 31<sup>st</sup> August 2022**

**Acceptance of Modified paper: 30<sup>th</sup> September 2022**

**1<sup>st</sup> copy of the Volumes (E-BOOK) : 31<sup>st</sup> October 2022**

**Final copy (E-BOOK) of the Volumes: 30<sup>th</sup> November 2022**

**Final release of the volumes (E-BOOK): 15<sup>th</sup> December 2022**

### Submission of Article:

The abstract and complete article is to be submitted to the **e-mail ID: [editorsbcg@nihfw.org](mailto:editorsbcg@nihfw.org)** mentioning **Sub-themes under Special Edited Books On “Collaborative Governance For Sustainable Development Of Health And Well-Being: Issues And Perspectives”**.
